Touchscreen Modbus Terminal Modbus RTU Input Product Specification

Document Part Number
551164 Revision C

Features

- RS-485, Modbus RTU Input
- 4X rated enclosure and Display
- UV rated Overlay for Outdoor use
- Graphical Display
- Calibrate transmitter From Display
- Hazardous area approved
- 85-264 VAC Input Power
- 24 Vdc transmitter and Terminal Power Supply

APPLICATIONS

- Controller

Markets

- Petroleum and Petrochemical
- LPG Terminals

Product Overview

The Touchscreen Modbus Terminal is a fully programmed remote terminal that can be placed in the field or in a control room. The Terminal is available in either a 7" or 10" Touchscreen and features individual tank information, tabular overview, tank calibration, and diagnostics. The input is Modbus RTU from any of the LP-Series and the terminal can output Modbus RTU to a plant wide system (PLC, DCS, SCADA) as well.

The Touchscreen Modbus Terminal can be ordered as the HMI only or in a NEMA 4X enclosure with DC power supply and DIN rail for field wiring. The front of the terminal is NEMA 4X and UV rated for outdoor use. The customer can order an optional sunshade if needed.

Temposonics programs each terminal based upon the number of tanks and process information to be displayed. The Terminal can display product level, interface level, temperature and volume. The number of tanks is limited to 12 for the 7" and 32 for the 10" based upon ease of viewing. The end customer can add additional tanks if desired.

Level Plus® Touchscreen Modbus
Terminal (part number 280897-2)

All specifications are subject to change. Contact Temposonics for specifications and engineering drawings that are critical to your application. Drawings contained in this document are for reference only. Go to <https://www.temposonics.com> for the latest support documentation and related media.

Product Specifications

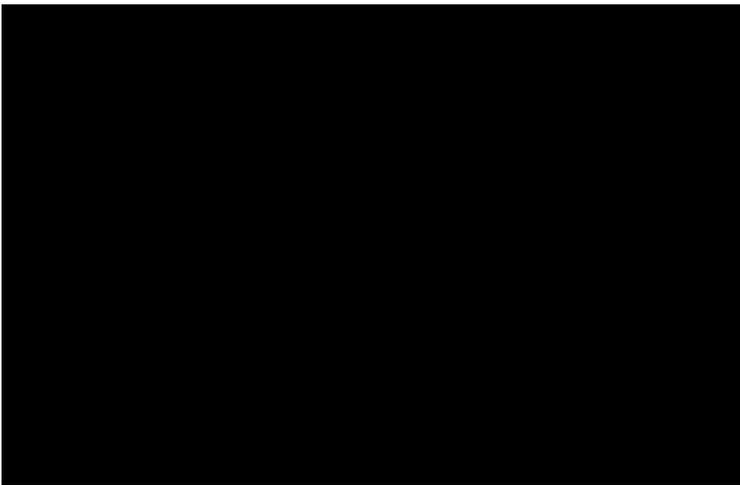

Parameters	specifications
INPUT	
Modbus RTU :	RS-485 port
OUTPUT	
Modbus RTU :	1 RS-232 port 1 Ethernet Port
Optional Outputs:	Contact Factory
ELECTRONICS	
Input voltage:	85-265 VAC
Transmitter supply:	24 Vdc ±20% supply
Display:	280897-X 7" WVGA (800x480) touchscreen 280898-X 10" VGA (640x480) touchscreen
ENVIRONMENTAL	
Enclosure rating:	NEMA 4X
Front panel:	NEMA 4X (Front panel overlay - UV rated)
Humidity:	0 to 85% relative humidity, noncondensing
Operating temperatures:	Electronics: -20C (-4F) to 60C (140F) storage temperature: -20 °C (-4 °F) to 70 °C (158 °F)
Altitude:	2000 meters
FIELD INSTALLATION	
Enclosure mounting hole dimensions:	SS Housing Height: 539 mm (21.24 in.) Width: 254 mm (10.0 in.) Fiberglass Housing Height: 476 mm (18.75 in.) Width: 305 mm (12.0 in.)
Enclosure dimensions	SS Housing Height: 571 mm (22.5 in.) Width: 406 mm (16.0 in.) Depth: 242 mm (9.53 in.) Fiberglass Housing Height: 495 mm (19.5 in.) Width: 405 mm (16.0 in.) Depth: 248 mm (9.76 in.)

Agency Approvals

Parameters	specifications
Hazardous Approvals:	ATEX II 3 G Ex ic nA T4 Gc IECEX Ex ic nA IIC T4 Gc cULus Class I, Division 2, Groups ABCD ♦ Approvals are obtained by original manufacturers for individual components. Temposonics does not maintain any approval for the Modbus terminal final assembly.

Control Room Installation

The following illustration shows an example of the Touchscreen Modbus Terminal used as a HMI in a plant-wide automation application. This example is for reference only. Actual configurations are dependent on the hazardous location and type of protection used at a Modbus terminal installation site. For information specific to your application, contact Temposonics.
